(International News Service.)

Chicago, Sept. 3.—Mayor William Hale Thompson faces possible indictment and grand jury prosecution for "palpable negligence of duty," after interfering with Governor Lowden's efforts to disperse the pacifists. Attorney Brundage awaits the word of Gov. Lowden to take action in this direction.

(International News Service.)

Chicago, Sept. 3.—While state militia and police were mobilized in Chicago today, the former to prevent further meetings of the Peoples' Council of Peace and Democracy and the latter to back Mayor Thompson's order for an uninterrupted meeting, most of the pacifists were slipping quietly out of town. They left their champion, Mayor William H. Thompson, who has been dubbed "Burgomaster," and "Unser Bill," by Chicago newspapers, facing a fight for continuance in office. A storm of protest, official and unofficial, and threats of official action against the mayor, followed his ruling which enabled the pacifists to meet in convention here after Governor Lowden had forbidden their meeting in this state.

The soldiers ordered here by Gov. Lowden arrived in Chicago just before the hour set for the second mass meeting.

Five thousand troops were ready to march on the proposed pacifist meeting if it met here today. The troops, with fixed bayonets, are awaiting the arrival of the governor.

H. H. Merrick, president of the National Security League, has issued a call for a meeting of the executive committee of the Chicago branch, to be held tomorrow to bring about concerted action to secure Thompson's removal as mayor of Chicago.

Chief of Police Schuetter is ready today to resign, rather than carry out possible orders from Mayor Thompson.

SELECTION BOARD SENDS OUT OFFICIAL NOTIFICATION FOR FIRST FIVE PER CENT TO MOBILIZE AT COURT HOUSE.

BRASS BAND AND SPEAKERS WILL TAKE PART IN DEMONSTRATION TUESDAY NIGHT, TO EXTEND COURTESIES TO DEPARTING "BOYS."

The 16 men selected by the local board as the first five per cent of the new national army from Morgan county have been mailed orders to report tomorrow at noon at the court house. From that time on the boys will be under military discipline. They will be given board and lodging until 2 o'clock, Wednesday morning, when four of the number will board the "Memphis Special" at the Decatur station for Camp Pike. Four others will be sent each successive day until the 16 are dispatched.

Plans are in process of formation for a rousing send-off Tuesday night for this first contingent. It is probable that the boys will be assembled some time between 8 and 11 o'clock on Second avenue, and will march to the Decatur station to the step of a brass band. W. W. Rahm, in charge of the "Booster Band," will furnish the music for the occasion. It is the plan to make a few short speeches and give the boys souvenirs before they depart. Several of the boys will be here for three or four days, and citizens are urged to take them out for automobile rides. This will not only be a courtesy to them, but will furnish inspiration to the remainder of the county's quota who will be leaving in a few days.

The four men who will be sent away first by the local board have not yet been selected. All will be assembled at the station and then the first four will be selected. Also those who will be in charge of the remainder will be appointed by the board. The official list of the 16 who have been chosen by the board follows:

Henry J. Holmes, Flint.
Ralph W. White, Decatur.
James N. Norwood, Albany.
John W. F. Bynum, Hartselle.
Ulysses E. Lockhart, Hartselle.
James B. Keltner, Albany.
John B. Fowler, Albany.
James M. Daniel, Austinville.

MORGAN'S NEGRO SOLDIERS ARE GIVEN BIG SEND-OFF SUNDAY

Several Hundred Persons Assemble at Lyceum Theatre and Hear Stirring Addresses

The 68 negro soldiers who have already been accepted from Morgan county for service in the new national army were given an enthusiastic send-off Sunday afternoon, at the Lyceum theatre. Stirring addresses were made by Capt. Samuel Blackwell, Albany's best known orator, and by a number of negro speakers. The meeting was held under the auspices of the colored Red Cross, the officers of which had seats of honor upon the rostrum. The men called to the colors occupied the front seats with veterans of the civil war nearby.

H. V. Cashin acted as master of ceremonies, and after a short speech, in which he said America was looking to the blacks as well as the whites, the song "America" was sung by the audience, led by Irene Mosely. Then Rev. S. M. Roberson offered a

prayer. Next the other national anthem, "Columbia, the Gem of the Ocean," was sung.

Following, Walter S. Burleson, president of the Normal school, at Normal, Madison county, made an eloquent appeal to the blacks as, ever did Booker T. Washington. "We are ready to take a bigger part, in this war than the government is willing to give us," said Burleson.

He suggested that each negro soldier be given a Testament and a steel mirror. The glass could be placed in the pocket just over the heart and act as a protection to that vital organ and at the same time serve the soldier as an aid in shaving.

Dr. W. E. Sterns emphasized the importance of the Red Cross and made an appeal for new members. At the end of the meeting several new members were added.

SAHARA DESERT SEEN FROM AN AIRPLANE

First photograph taken of the Sahara desert from an airplane. It shows the section near Guemor. Almost all the houses, as can be seen, are fortified with high embattled walls. Before the French occupation these cities always had to prepare for attacks by the Tuaregs, nomadic warlike tribes. In the background of the photograph, the strangers' or outsiders' homes can be seen.

LIMESTONE REQUIRED THREE CHILDREN, OTHER COUNTIES ONE, WHILE MORGAN HELD THAT BEING MARRIED WAS SUFFICIENT.

The local board has received a certified list from the district board of all drafted persons who did not claim exemption as well as a list of those claiming industrial exemptions, all of which were disallowed.

Huntsville, Ala., Sept. 3.—The district board of exemptions is up to its ears in work and has been holding night sessions to get certified lists back to the nineteen counties so that the five per cent of their quota of men may be ready by next Wednesday.

The board has certified back to the various counties the lists of those men who did not claim exemptions and those whose claims of exemptions on account of industrial pursuits, including agriculture, had been denied. All the claims submitted in every county on these grounds have been passed on. The farmer and the mechanic, the railroad man, the miner and the iron worker will have to go along with the business man, clerk and all others who are physically fit.

The board has not yet reached the question of exemptions on account of dependents. Whether or not married men will be given exemptions when their wives are dependents alone upon their labor has not been determined by the board.

Different County Boards Have Different Views.

A study of the action by the various local county boards with reference to certain classes of drafted men is very interesting. The Morgan and Walker county boards did not put into the service any married man, and the Colbert county board put in only two. On the other hand, Jackson county did not excuse any married man who had no children. In Marshall county a married man had to have more than one child to be exempted, while over in Limestone three chil-

EXAMINATIONS OF DRAFTED MEN RESUMED WITH ALL FIVE OF THE PHYSICIANS ON THE JOB.

BUSY WEEK IS AHEAD

LONG LIST OF THOSE WHO CLAIMED EXEMPTION FROM MILITARY SERVICE. FOURTEEN ARE REJECTED OUTRIGHT.

The Morgan county selection board began the examination of the 700 additional drafted men this morning at the Albany city hall. All of the five doctors were present and 47 men were examined. At this rate most of the week will be consumed in the examination. However, the board may get one or two doctors more, in which case better speed can be made.

If the number examined only eight passed the examination and did not claim exemption. They are John J. Clanton, Dan Stroup, Will Evans (c), John D. Barksdale, Grover C. Graves, John B. Sherrill, Herbert Moon, Albert Nobles (c).

Those claiming exemptions are: Luther E. Higdon, Matthew Macklin (c), Wm. H. Thompson, John W. Forenby, Andrew C. Denton, Walker E. Henderson, Clifton Henderson, Dillard Henderson, Joseph P. St. John, Louis C. Stinson, Henry Lawrence, Hernata L. Turner, James W. Gillespie, Wm. J. Bailey, Ira Draper (c), David S. Bullard, Robt. L. Willys, Clarence B. Jones, Edward L. Ashford, John H. POLITICAL CONDITIONS ARE IMPROVED

Italians Hammer Austro-Hungarians Hard and Make Good Gains

(International News Service.)

London, Sept. 3.—The Russian provisional government has ordered the abandonment of Riga, the great Russian military store house on the Baltic, according to word from Petrograd. The capture of the city by the Germans appears imminent, it was stated. The evacuation order also states that the territory immediately surrounding Riga is to be given up. The evacuation of Riga gives the Germans a great advantage in their drive on Petrograd.

(International News Service.)

Petrograd, Sept. 3.—Although a German success is reported from the Riga front, the political position of the provisional government is today regarded as stronger than at any time during the past six weeks.

(International News Service.)

Rome, Sept. 3.—Fortified caverns on the rocky slopes of the Bainsizza and Carso plateaus are falling one by one before the advance of the Italians toward Trieste.

Slowly but surely the Austro-Hungarian defenses are crumbling under the steady pressure of the Italian artillery and infantry.

Following the capture of Monte Santo, the Italians are now advancing against the defenses of Cargaro and up the slopes of Monte San Gabriele, said advices from the Italian base at Udine today.

(International News Service.)

London, Sept. 3.—British troops again last night repulsed attacks south of Havincourt, the war office announced today. The Germans were endeavoring to capture advanced British positions. The British conducted a successful raid in the same region.

It was officially announced later today that one man was killed and four women and two children injured in the air raid.

RUSS CAPITAL MUST BE MOVED TO MOSCOW.

(International News Service.)

Washington, Sept. 3.—The evacuation of Riga by the Russians means the removal of the Russian capital to Moscow, officials here today said. With the occupation of the big fortress city by the Germans, the road to Petrograd is in a way opened, the point out. The inevitable result must be the speedy transfer of the seat of government and an official announcement to that effect is expected shortly. In this connection officials said that the removal of the capital to Moscow would help rather than hinder the provisional Russian government.

NEW ERA DAWNS FOR LABOR'S HOST

(International News Service.)

Washington, Sept. 3.—Labor Day, 1917, finds the American working man in a better position so far as the destinies of the American government and people are concerned, and heralds the dawn of a much broader era for the laborers of the United States, officials and labor leaders here at the capital declared today.

During the last six months there has been such a general increase in the wages of workingmen in all sections of the country that the bureau of labor statistics has not caught up with the work of averaging the new high level.

Mysterious Air Craft Hovered Over Cities Early Sunday Night

Another war time war aerial vessel was sighted yesterday by several citizens of the cities. This airship or balloon, whichever it might have been,

was first sighted early in the evening in a northern direction. It came straight south until it stopped directly over Decatur, and then turned due west.

About two weeks ago D. W. Speake, while bathing in the river early one morning, sighted some air machine, he thinks. The air craft lighted on the river and rested for some time and then disappeared, he said.

These air machines probably are making trial journeys out from the aerial station at Pensacola. But other elements, easier to be frightened, are every ready to proclaim them German airships.

Wanted to See the Sights and Charged the Camp Guard; Many Are Wounded

(International News Service.)

Camp Mills, Mineola, Long Island, Sept. 3.—Military punishment was today facing members of two companies of the 167th infantry (Alabama guardsmen) who late yesterday attempted to break quarantine regulations and overpower the military police.

More than 40 of the guardsmen broke from their regimental camp and attempted to stampede the camp guard of the 165th infantry. A prolonged fight resulted in which the majority of the guardsmen were cut or bruised.

The Alabama guardsmen were ordered into quarantine shortly after their arrival here because several cases of measles had been discovered in the regiment. The guardsmen complained of being so closely confined and wanted to see something of New York. Military authorities refused to make public the identity of the two companies that took part in the outbreak.

RUSSIA'S POOR SHOWING

IS BEING EXPLAINED.

With the downfall of the Czar and the overthrow of the old bureaucracy, tongues that have been silenced in Russia through fear are giving utterance to burning statements that explain the failure to check the German offensive. This new testimony is placing Russia before the world in a different light. It reveals the heroism of an army that has fought without equipment and without food, the trained soldiers of the most efficient military power upon the globe.

M. Rodzianko, president of the Duma, testifying at the trial of M. Soukhomiloff former minister of war who is accused of treason, declared that official resistance had been made to every effort for a betterment of conditions at the front.

Press dispatches, in reporting the trial, state:

The resistance of the war minister aggravated the terrible situation of the army, which found itself compelled to fight without arms. In March former Grand Duke Nicholas declared that a continuation of the war under these conditions was becoming impossible.

"I then went to Galicia," said M. Rodzianko, "and what I saw there filled me with horror. I affirm that the responsibility for the enormous losses we suffered during the retreat falls entirely upon Soukhomiloff. A committee of defense was created to investigate the situation and immediately establish Soukhomiloff's culpability. I then appealed to the former Czar and persuaded him to convocate the Duma and dismiss Soukhomiloff."

M. Rodzianko's statement made a deep impression on the court.

Americans, at least, had been slow to believe that the descendants of the men who turned Napoleon back and buried the nation's capital city rather than suffer defeat, were guilty of cowardice. They could not picture the indomitable Cossacks as quailing before even Von Hindenburg's terrible Huns. This new insight into conditions in the realms of the Bear does not startle. It rather brings hope that with the reins of government in the hands of patriots, that a rejuvenated Russia will build its military machine on stronger lines and that when the great offensive takes place next spring the drive towards Berlin will be resumed by armies that are equipped to fight.

LABOR DAY AND ITS ENLARGED MEANING.

No one who is not blind can fail to see that the battle line of democracy for America stretches today from the fields of Flanders to every house and workshop where toiling upward striving men and women are counting the treasures of right and justice and liberty which are being threatened by our present enemies.

This is the message of President Wilson on Labor Day to the toiling masses of America. The executive, in his letter, which is addressed to Samuel Gompers, president of the American Federation of Labor, also expresses his gratitude and delight

at the loyal stand taken by the workingmen in defense of their country. Almost with one accord they are helping to fight its battles by their devotion to duty.

It is this realization of labor's opportunity, this loyalty to native land, this grasp of world affairs by the laboring men that makes the celebration today of Labor Day more consequential than any that has been held in the past. Germany has made the issue between autocracy and democracy, and labor has been quick to note the fact. It is loyally upholding the hands of the only government on earth that grants to every man an equal chance. The nation's strength in this hour of peril is the unfaltering allegiance of the men who work with both head and hands.

MAYOR THOMPSON'S UNPatriotic ACTION.

Mayor William Hale Thompson, of Chicago, who has already come into wide notice by his unpatriotic conduct, again gave aid to the enemies of America when on last Sunday he openly sponsored the meeting in the city of Chicago of the Peoples' Council of America for Democracy and Terms of Peace. This council, as its very name implies, has a membership composed entirely of the wild and wooly fanatics who under various pretexts have been fighting for Germany both at home and abroad. Scratch the skin of every one of them, whether they attempt to powwow in Chicago or Stockholm or Berlin, and it will be found that they are either royal subjects or unwitting tools of the Kaiser.

The convention held at Chicago was for the purpose of forming a central organization to direct the activities of the numerous unpatriotic societies that have sprung up in various parts of the nation. Working individually, these bodies could accomplish but little real harm. Working collectively and with a general purpose they can do much to sap the national vitality by insidious means. This smacks the offense of the Chicago executive the blacker and more degrading. It places him on even a lower level than the disgruntled Tom Watson, who, after reaping a fortune from the license granted by a free government, stabs his protector in the back with the dirk of treasonable utterance.

The United States must keep its eye on its Watsons and its Thompsons. They are capable and therefore dangerous.

Money is placed above the man when only the latter is conscripted for war service.

King Cotton also is fighting with the allies.

Better boosting means better business.

The ingenuity of the war prophets is never taxed.

Caught Many Fish;
It's a Sad World

George Jackson and Louis Boeglen are men of unquestioned veracity. Any statement they made in regard to a catch of fish would be entitled to as much credence as it came from the lips of Izak Walton himself. And everybody knows how Izak got his reputation.

Hence—

The following "hard luck" story must be accepted at its face value. Boeglen and Jackson went fishing.

They came back across the ferry with a large "string."

When they reached home they had no fish.

They say that the finny tribesmen which they speared were hung on the fence outside a grocery store. They walked right in, turned right around and walked right out again.

The fish were minus.

THE NEED FOR INCREASED STORAGE THIS FALL

By J. F. Duggar, Director of Extension Service.

Prepared by Extension Service, Auburn, Ala.

In years past the warehouse facilities have been insufficient to completely protect the largest crops of cotton that the State has produced.

This year Alabama's need for storage facilities is far greater than ever before.

This is because we have now to put on the market not alone a compact article, cotton, but the bulky farm products—corn, velvet beans, peanuts and sweet potatoes.

Not only has the character of crops to a large extent changed, but the quantity of these bulky crops has been increased many fold as compared with their production in any previous year. For example, corn occupies about 1,000,000 acres more than last year, and the prospects are that last year's crop will be fully doubled, with the possibility that the aggregate yield of corn in the State will come close to 1,100,000 bushels.

Velvet beans are estimated to occupy more than 4,400,000 acres. If these average one-half ton of beans per acre, and if one-half the bean crop be harvested by hand we should need to provide storage for the greater part of this 600,000 tons of this bulky but valuable product.

The shortage of corn, together with the large production and consequent danger of a slump in prices if attempt is made to sell this grain as soon as gathered, requires that provision should be made on the farms to store a large part of the immense crop of corn, velvet beans, and peanuts.

All this means that every period when work is slack should be utilized in the erection of cheap storage shelters. The advance in the cost of metal roofing, composition roofing, and lumber will often make it desirable for these roofs to be of boards. The main point is that the erection of such structures should not be postponed until the time for gathering the crop is upon us.

Once In the Limelight

Being Tales of Those Who Reached the Front Page and Then Dropped Back to Obscurity.

THE SULTAN OF SULU.

Hadjji Mohammed Jamalul Kiram, better known to the world at large as the "Sultan of Sulu," claims to be a descendant of the valiant Bedouin chieftain, Paguan Tindig, who early in the sixteenth century conquered the Sulu archipelago and founded the Sultanate.

He journeyed on to Washington, where he was entertained by several army officers who had known him

during his activity in the Philippines, but received no official recognition, which did not suit him particularly.

He returned to the Philippines and ordered his tribesmen to do as the Americans wished, as he had found during his visit to this country that there were "altogether too many men to fight." So with good grace he proceeded to make the best of things.

He is the only monarch over whom the government of the United States has any jurisdiction.

Before the entrance of the United States troops into the Philippines he was credited with unlimited wealth,

which, it is alleged, he derived from robbing the pearl fishers of their catch.

When the treaty was made allowing him to retain his title and his religion it was stipulated that he should have a salary of \$125 a month, which he has received at regular intervals.

Sailors who touched at the island on their voyages in 1896 state that in those days the Sultan had the most wonderful collection of wives in the whole archipelago and a ballet of fifty beautiful Sulu girls, who courted for his august pleasure whenever the spirit moved him.

He had troops and high priests and prime ministers, etc.; in fact, was such an ideal musical comedy monarch that George Ade decided he was most valuable material.

The Sultan still lives in a wooden palace in Sulu, and is recognized as the headman of the tribe. Army officers at various times have been rather wary of the political activity of the Sulu monarch, but so far he has given little trouble.

His present vocation is that of tilling the soil, and he has become an excellent farmer. He has only recognized one man as his superior (in the eastern sense of the word), which is Major General Hugh Scott, of whom he is very fond.

On September 24, 1910, the Sultan arrived in this country with one of his wives and a small bodyguard. He informed the public that he had four wives, but found them much too ex-

cessive.

Two services will be held daily, at 2:30 o'clock in the afternoon and at 8 o'clock at night.

Last night the congregation of the South Side Methodist church co-operated in the services, and during the week it is stated that all the South Side churches will take part. The public is invited.

DR. MAYS GIVEN SILVER SERVICE ON EVE OF DEPARTURE

PASTOR OF CENTRAL BAPTIST CHURCH PREACHES TOUCHING FAREWELL SERMON.

Chicago, Sept. 3.—After being driven from three states, the Peoples Council of America for Democracy and Terms of Peace perfected a formal organization at a public meeting in Chicago Sunday.

The session was held under protection of police, acting on orders from Mayor William H. Thompson, which were in defiance of Gov. Frank O. Lowden. Four companies of national guardsmen rushed from the state capital on a special train to prevent the meeting, arrived after it had adjourned, its purpose accomplished.

The clash in authority between Mayor Thompson and Governor Lowden came as the result of the police breaking up the meeting Saturday on orders from the governor. When the mayor, at his summer home at Lake Forest, heard of it he declared that the governor had exceeded his authority and immediately instructed Chief of Police Schuettler to permit the meeting and to give the delegates every protection.

When the pacifists heard of the mayor's action immediate preparations were made to hold the meeting which had been prevented in Minnesota, North Dakota and Wisconsin and had been forbidden as unpatriotic and disloyal by the governor of Illinois.

The delegates gathered shortly after noon at the West Side auditorium in the heart of the cosmopolitan quarter. A score of policemen were on guard inside and outside the building; 50 more were held nearby to suppress any disorder. Nearby street were utterly deserted as the delegates were called to order by Seymour Stedman, former socialist candidate for governor of Illinois, as temporary chairman.

In the meantime Governor Lowden had been notified and immediately called Adjutant General Dickson of Illinois into conference. It was found that as most of the Illinois national guardsmen had been federalized the governor had no troops at his disposal in the Chicago district. An effort was made to reach Major General Carter, commander of the department, to obtain permission to use federal troops but he could not be found in time.

Four companies of the Ninth regiment of the Illinois National Guard who had not been federalized then were assembled at Springfield and started for Chicago on a special train at 3:58 o'clock with orders to make the run in four hours. Adjutant General Dickson, who accompanied the troops, had orders to break up the meeting at once on his arrival in Chicago, despite the action of the police and mayor.

Official Board Will Select New Pastor

So Empowered by Congregation of Westminster Presbyterian Church.

At the congregational meeting held Sunday at Westminster Presbyterian church, following the sermon, the official board was authorized to recommend a pastor, the pulpit at present being vacant owing to the resignation of Rev. E. L. Grau. It is understood that the Board will hear a number of applicants before making a decision. Its findings will then be referred back to the congregation for ratification.

The congregation also voted to inaugurate a financial campaign for the purpose of freeing the church from indebtedness and to raise funds with which to repair the church and manse.

The sermon Sunday morning was preached by Rev. L. F. Goodwin, pastor of the West Side Presbyterian church, who was heard by a large audience.

Benjamin F. Strange Died Early Today

Passed Away After Lingering Illness.
Funeral Tomorrow Afternoon.

Benjamin F. Strange, one of Decatur's best known business men, died at 1 o'clock this morning at his home on Church street, following a lingering illness. Mr. Strange had a host of friends to whom the news of his passing will come as a great shock. He is survived by his wife.

Funeral services will be held tomorrow afternoon at St. Ann's Catholic church and will be conducted by Father Kennedy. The remains will leave the residence for the church at 2 o'clock. Interment will be at City cemetery.

DR. MAYS GIVEN SILVER SERVICE ON EVE OF DEPARTURE

GALOMEL ROBBED OF NAUSEATING QUALITIES

Medicinal Virtues Retained and Improved—Unpleasant and Dangerous Qualities Removed—New Tablet Now on Local Market Under the Name "Calotabs."

A dramatic climax to a touching farewell service at the Central Baptist church of Albany Sunday morning was the presentation of a handsome silver service to the retiring pastor, Dr. Livingston T. Mays, by his congregation as a token of its respect.

Dr. Mays, who will leave this week with his family for El Dorado, Ark., where he will assume the pastorate of the First Baptist church, had preached a brilliant discourse on the farewell of St. Paul to the church at Ephesus, when Senator D. F. Green arose and presented the gift of the aggregation. He spoke in terms of the highest praise of Dr. Mays' service in Albany and when he had finished the eyes of many of the pastor's congregation were wet with tears.

The congregation was thanked by Dr. Mays on behalf of himself and his family for the gift. He also took occasion to compliment the leaders of the church for their faithful work during his pastorate, mentioning Mrs. Seneca Burr, the church organist, and other officers. Dr. Mays declared that he was leaving the church united in its aims and purposes and he was appreciative of the courtesies that have been extended to him by church workers generally and the press of the city.

The members of Dr. Mays' church saw him leave with regret. He is considered one of the most scholarly ministers in the state and takes keen interest in national and international affairs. He was formerly American consul to an important Canadian post and stood high in the diplomatic service. He is one of the best known Baptist preachers and authors within the limits of the Southern Baptist Convention.

AMUSEMENTS

MASONIC TODAY.

Miss Kitty Gordon, the most superbly gowned woman in the world, is the star of "The Beloved Adventures," the newest World-Picture Brady-Made. She will be seen in this attraction at the Masonic theatre on today. "The Beloved Adventures" not alone gives her the opportunity for the display of the most recent gorgeous creations of the world's leading fashion shops but also shows her in the most intensely dramatic acting of her wonderfully successful career. The story told in this picture is filled with incident, is replete with gripping scenes and ends with a soul-satisfying climax after a breathless rush through five heart-stirring reels. "The Beloved Adventures" is a wholly exceptional offering. You will enjoy it.

Big Send-Off For Soldier Boys Tonight Russian Fleet May Have Been Taken at Riga

NEGRO TROOPS TO BE TRAINED WITH WHITES, IS RULING

Secretary Baker Orders One Black Regiment for
Each Cantonment

ONE REGIMENT FOR EACH DIVISION

Long Mooted Racial Question Decided by War
Department Today

(International News Service.)

Washington, Sept. 4.—The disposition of the colored members of the national army which has had the attention of Secretary Baker for nearly a month was decided today. The negroes will be trained with the white soldiers at the sixteen national army cantonments. One infantry regiment of colored troops will be organized at each of the 16 cantonments where there is sufficient personnel available, says a general order by the war department. This means that one colored regiment will go with each of the sixteen white divisions when they are sent overseas.

(International News Service.)

Washington, Sept. 4.—The battalion of negro troops from Ohio now stationed at Montgomery, Ala., will not be transferred. Representative Bent, chairman of the house military committee, was told today when he protested to Secretary Baker against their presence.

ORDER OF CELEBRATION.
Parade forms at intersection of Grant street and Second avenue at 8 o'clock.

Parade moves down Second avenue to Ferry, up Ferry to Lafayette, up Lafayette to Bank street, thence to Decatur city hall.

Speech making at Decatur city hall, with 5-minute addresses by Mayor Nelson, Mayor Payne, H. R. Thompson and others. James L. Draper will preside.

Presentation of souvenirs.

The recruits will then form in line and the audience will pass by and shake their hands, bidding them God speed.

Music by Rahm's Booster Band.

Everything was "set" today for the big send-off to be given the initial contingent of Morgan county men who leave this week for the training camp at Ft. Pike, Arkansas. The program for the celebration is outlined above. It will be added to it a substantial way by the giving of souvenirs to the soldier boys. All merchants or others who care to join in this movement are invited to get busy. Tobacco, smokes of various kinds, comfort kits and similar articles are suggested as appropriate gifts. The men are required to travel light and carry with them nothing of a cumbersome nature.

Twelve of the sixteen men who constitute five per cent of the county's quota of 328, reported to the exemption board at noon. The four others are expected to report by late this afternoon. The roll was called when the boys assembled and those who cared to do so were allowed to go.

200 Sailors Victims of Latest German Air Raid

BAD CARTRIDGES ARE FURNISHED SOLDIERS ABROAD

(International News Service.)
Washington, Sept. 4.—American munition factories pilled off on the war department rifle ammunition which had been rejected by both the English and French governments, Representative McLeomore of Texas, charged today.

(International News Service.)
Washington, Sept. 4.—There will be a congressional investigation of the conditions in which Pershing's troops in France were supplied with defective ammunition by the war department. The house without discussion today adopted a resolution offered by Representative McLeomore of Texas, calling upon Secretary Baker immediately to furnish to the house all information in his possession bearing on the new ammunition scandal.

(International News Service.)
Washington, Sept. 4.—Steps looking to investigation of the supplying of defective cartridges to the American forces in France have been taken by Brigadier General Crozier, chief of ordnance, and by the senate military committee.

General Crozier asked that a board of inquiry be named. He said a small quantity of bromide, which retards fire for a fraction of a second, had been found in about 2 per cent of the army's cartridges. Confidence was expressed by the general that the board would find that the defect was unavoidable and not due to negligence either on the part of the manufacturers who supplied the chemical to the government arsenal at Frankfort, or to ordnance department inspectors.

The senate committee decided to call Secretary Baker before it for an explanation of the matter and will then decide whether to pursue an investigation of its own. Whether the inquiry suggested by General Crozier shall be made will be decided by Secretary Baker when the request reaches him tomorrow.

Any defective ammunition which may have been supplied the navy by the war department ordnance bureau will be traced and returned for remanufacture. While the faulty cartridges comprise about 2 per cent of the army's stock, General Crozier said about 10 per cent will have to be reprimed since the slow firing cartridges are mixed with others turned out from the Frankford arsenal during a certain period last spring.

New primers will be attached to all still in this country and the quantity held by the expeditionary force will be used for target practice. Since each cartridge and each box bears the date of manufacture, it has been easy to locate the stores turned out during the period when the imperfect chemical is known to have been used.

The danger attached to the use of the ammunition is that if a cartridge does not explode promptly and a soldier opens the rifle magazine to ascertain the trouble, it may explode in his face. Soldiers have instructions not to open the magazine for several seconds if no explosion occurs.

The bromide in the potassium chloride of the primers, General Crozier explained, was not detected in sufficient quantity by tests made at the plant to indicate possible danger. It was sufficient, however, to cause chemical action after the cartridges were made up.

"This is one of the troubles that we must expect under a scarcity of chemicals caused by interruption of world markets," said the general. "We may have others, but they will be as nearly unavoidable as we can make

PRESIDENT WILSON WOULD LIKE TO FIGHT IN FIELD

(International News Service.)
Washington, Sept. 4.—President Wilson feels genuine interest for the drafted men who will go overseas to fight freedom's battles.

"I should like to be with them on the field and in the trenches where the real battles for the independence of the United States are to be fought," he wrote in a letter to Thos. L. Claybourne, junior member of the mayor's committee of national defense for New York City. President Wilson will march in a parade this afternoon at which time the soldiers from Washington will march down Pennsylvania avenue before leaving for the camp.

KITCHENS, AGED 32, REGISTERED; NOW HE FACES SERVICE

James B. Kitchens, living near Kitchen's Mill, Albany, Route 2, though he is several months over 32 years of age, registered and has been drafted for military service. He was examined yesterday and passed the physical test.

Through some misunderstanding he registered when he was over age. After his name was sent in to the local board and certified to higher authorities there was no way of striking his name from the list. So Mr. Draper, of the local board, gave him instructions to make an affidavit of his age and send this to the district board which will probably release him. He is married and has several children.

David Edwards, of Lacey Springs, should have reported for examination yesterday. But he became ill and yesterday was reported to be in a serious condition. If he gets better, he can be examined at a later date.

One negro came into the examination room yesterday with his face fearfully skinned up. He claimed that the condition of his face was due to eczema. He was passed by the board.

Merchants to Arrange for Band Concerts Two Times a Week

A movement was on foot today among the merchants of Albany to arrange for two band concerts a week on Second avenue. The plan was to raise a fund to pay for the music, and if this is done it is thought that the Booster Band can be engaged.

The band is one of the best in this section of the state. It is probable that if the necessary sum is secured, the concerts will be given on Tuesday and Friday evenings.

GERMAN COUNCIL HELD TO DISCUSS PRESIDENT'S NOTE

(International News Service.)
Washington, Sept. 4.—That President Wilson very shortly will be asked just what guarantees the United States and probably the entente allies will demand from Germany as the conditions for a peace conference became certain today. High diplomatic officials intimated that this action may be expected from the Vatican. At the state department officials admitted that they would not be surprised should this develop.

(International News Service.)
Amsterdam, Sept. 4.—An important council has been held at German great headquarters to consider President Wilson's note to Pope Benedict, according to information from an important German source today. There is every indication that the note has shoved the question of German political reforms into a place of equal prominence with the talk of peace negotiations.

CHICAGO PLANS TO OUST ITS MAYOR

CIVIC ORGANIZATIONS AND THE
GRAND JURY BEHIND KAISER'S
FRIEND.

(International News Service.)
Chicago, Sept. 4.—When the city council met today to consider a resolution commanding Governor Lowden for sending state troops here to prevent further sessions of the pacifists it was apparent that there would be delay to the plans of some of the councilmen to fight for the ousting of Mayor Thompson.

(International News Service.)
Chicago, Sept. 4.—While Chicago prepared to bid farewell to her thousands of soldiers of the new national army today and her contribution to the "Rainbow Division" was speeding onward, preparations for a house cleaning that will clear the city of stain from anti-war propaganda were under way today. There were reports, apparently authentic, that the federal government was making a very rigid investigation of the alleged pro-German utterances of Mayor Thompson whose ruling permitted the Peoples Council for Peace and Democracy to meet here Monday.

The federal grand jury is in session to investigate "slacker" charges, but it is believed the jury also will investigate Thompson's case. A number of civic organizations have demanded Thompson's removal and are working to that end.

(International News Service.)

London, Sept. 4.—One hundred and seven sailors were killed and 86 injured in the German air raid over the Scheerness and Chatham areas last night, it was officially announced today. In addition, one citizen was killed and six others injured. Last night's raid was the second in 24 hours and was much more disastrous than the preceding one. According to an early announcement the hostile air craft crossed the British coast shortly before midnight. English air planes went aloft and gave battle immediately that the enemy appeared.

Six German machines took part in the raid.

(International News Service.)

Paris, Sept. 4.—First line German positions over a front of 800 yards in the Champagne district were penetrated by French troops in a night attack, the war office announced today.

Petrograd, Sept. 4.—The Russian war office today admitted that the retreat of the Russian armies from Riga continues.

(International News Service.)

Washington, Sept. 4.—The fall of Riga, opening as it does to the German hordes the direct pathway to Petrograd, had already been discounted by the entente and the United States.

Consequently, official circles in expressing regret that it had taken place through the collapse of the Russian military spirit rather than through German prowess, were not disposed to regard it as the great German victory which it would have been acclaimed had it taken place 12 months ago. The chief concern today was in the fate of the Russian squadron which was in the harbor there.

(International News Service.)

Copenhagen, Sept. 4.—Petrograd and the whole northern end of the battle front is seriously menaced by the Germans today as the result of the evacuation of Riga. The right wing of the Twelfth Russian army which evacuated Riga is falling back towards Wenden.

Berlin reports that the German advance continues east of Riga.

Riga was heavily shelled by big German guns on Saturday and a part of the city wrecked and a number of non-combatants killed. An unconfirmed report has reached here that the Russian cabinet is preparing to remove the government archives from Petrograd to Moscow unless the German drive is stemmed.

The next phase of the German offensive is problematical. There are three roadways leading from Riga to Petrograd, 320 miles away, any one of which may be picked by the German general staff. It has been reported that the greater part of the Russian Baltic Sea fleet was lying inside the Gulf of Riga and that the fall of this port would seal its doom. The belief is held in some quarters, however, that the greater part of the fleet is at Kronstadt, where there is a land fortress.

What's War Profits? Congress in Dark

(International News Service.)

Washington, Sept. 4.—Before further action is taken towards determining the tax rate on war profits, an effort will be made in the senate to settle finally the method to be followed in determining just what portions of corporations' earnings are due to the war. The house has decided that war profits consist of all earnings over 8 per cent on capital invested.

(International News Service.)

Washington, Sept. 4.—The Maximilists went down to defeat again this afternoon when the senate by a vote of 74 to 12 rejected the Hollis amendment to the war revenue bill striking out the finance committee amendment and restoring the pre-war basis for computing war profits. Immediately after this the senate voted down another of the La Follette amendments for a 60 per cent war profits tax.

300 Houses Are Destroyed When Quake Hits Bogota

(International News Service.)

Washington, Sept. 4.—Reports of the serious loss of life in the earthquake which destroyed 300 houses in Bogota, capital of Colombia were not confirmed in state department advices this afternoon. The department had only meagre advices regarding the quake. The report, it was stated, indicated that 300 houses had been completely destroyed, but no mention was made of casualties.

DRAFTED MEN SHOULD HAVE
BIG SEND-OFF TONIGHT.

It should be the pleasure of every
man in the Twin Cities to turn out
tonight and give a big send-off to the
Morgan county men who are to form
the first contingent sent to Camp
Pike for training. This is an op-
portunity for the display of patriotism,
a chance to show that there is gen-
uine appreciation at home for the sac-
rifices made by the men who were
chosen to defend their country.

The Home Guards should join in the
parade, thus lending it a more mar-
tial aspect. The commercial organiza-
tions should take part. In fact, every
person who loves native land should
by their presence and absence send
the soldier boys off to stern fields of
duty with the consciousness that they
have the loyal support of the folks
back home.

The Chicago Tribune should take
note of the fact that the mayor of the
Windy City has reached such a
high state of civilization and "kultur"
that he is no longer loyal to his
country. It might also con the fact
that even Georgia, with its Tom Wat-
son, has no worse record.

Two per cent of the cartridges sup-
plied the American forces in France
have been found defective and General
Crosier, chief of ordnance, has asked for
an investigation. It should be
forthcoming. The public has not yet
forgotten the scandals of the Span-
ish-American war.

Negro Men Accepted in
Quartermaster's Corps

Colored men are wanted at once
for the quartermaster's corps, Na-
tional army. This is the substance
of a telegram received by Sergeant
Ball of the Decatur recruiting station
from headquarters. For some time
Sergeant Ball has had instructions not
to take negroes, although many have
asked to volunteer.

Three other recruits were sent off
yesterday and today. They are: Wil-
mer H. Miller and Porter R. Woodall,
Harris Station; Howard C. Francis,
Somerville.

A Mutual Benefit
District Agency

That Albany and Decatur are fast
becoming prominent insurance cen-
ters is further evidenced by the fact
that the firm of W. A. Bibb & Son,
through the efforts of their minor
member, J. L. Bibb, have secured a
district agency with the Mutual Bene-
fit Life Insurance Company of New-
ark, New Jersey.

This is a recognition that speaks
well for Albany and Decatur. The Mutual
Benefit, one of the oldest and largest
life insurance companies in America,
in firmly placing here, with its known
conservatism, shows its faith in the
future of these two cities and this
territory.

This company needs no introduction
to this community, where it num-
bers its policyholders by the hundreds
and is famed as the leading
annual dividend company. Their rep-
resentatives, W. A. Bibb & Son, have
outlined a policy of service to the
insuring public and are amply
equipped to render efficient insurance
service to old, new and prospective
policyholders.

Voice of the People

THE REAL YELLOW PERIL—NOT
YELLOW MEN—YELLOW METAL.

To the Editor:

Croesus, whose name was long
used as a synonym for wealth, were
he on earth today, with all his gold,
would be no match for the modern
money gatherer. Ancient Rome boast-
ed of her rich men, but today they
would not even be honored with a
place among the rich. In former
times, if a man possessed a million
dollars he had reached the pinnacle
of financial success. According to the
standard of modern money barons, to
be the possessor of only a million dol-
lars is but to have taken the first
small step toward commercial con-
quest. A captain of finance must
possess or control millions upon mil-
lions of dollars.

Many are asking: "What is the sig-
nificance of all this? Where will it
end? Will this increase of wealth
bring greater happiness to mankind,
and greater security to the home,
the community, and the nation?" We
have two means at our command by
which we may arrive at a safe ans-
wer to this important question. Once
the less reliable—is the lesson of the
history of past nations, for "history
repeats itself." The other and greater
is the prophecies of the word of God.

Great national and individual
wealth, followed as it is by luxury,
love of ease, and social degeneracy,
have proved the undoing of many a
nation and many a person. We have
reached that time again, when not
only in this country, but in the ma-
jority of all civilized countries, by far
the greater part of the wealth is held
by a decided minority.

Of this time Isaiah truly prophesied,
"Their land also is full of silver and
gold, neither is there any end of their
treasures; their land is also full of
horses, neither is there any end of
their chariots; their land is also full
of idols; they worship the work of
their own hands, that which their
own fingers have made, and the mean
man boweth down, and the great man
humbleth himself." Isaiah 2:7-9. This
is Isaiah's picture of the last days,
as shown in the introductory verses
of this chapter.

The poor are getting poorer, the
rich are getting richer. To the truth-
fulness of this, the prophecy of James
bears record: "Go to now, ye rich
men, weep and howl for your miseries
that shall come upon you. Your riches
are corrupted, and your garments
are moth-eaten. Your gold and sil-
ver is cankered; and the rust of them
shall be a witness against you, and
shall eat your flesh as it were fire. Ye
have heaped treasure together for the
last days. Behold, the hire of the
laborers who have reaped down your
fields, which is of you kept back by
fraud, crieth—and the cries of them
which have reaped are entered into
the ears of the Lord of Sabaoth. Ye
have lived in pleasure on the earth,
and been wanton; ye have nourished
your hearts, as in a day of slaughter." James 5:1-5.

It is here definitely stated that in
the last days, these combined forces
of capital will apparently be in con-
flict with labor. And the end is not
yet. The European war has com-
plicated international commercial rela-
tions to such an extent that here-
after one of the great dangers to the
peace of the world will be the ques-
tion of the world's commerce. This

will inevitably effect first the great
manufacturing combines, then the
middle moneyed classes, and finally
the individual worker. The interests
of nations cross and recross to an
extent never dreamed of before. The
interests of capital and labor cross
and conflict more and more.

The capital and labor problem, na-
tional and international commercial
trouble, the combining forces of all
classes of society—these are all a
fulfillment of the Biblical prophecies
touching the last days. Our safety lies
in making God's interests our inter-
ests, and in following the injunction
of the apostle James: "Be patient
therefore, brethren, unto the coming
of the Lord. Be ye also patient; stablish
your hearts, for the coming of the Lord draweth nigh."

James 5:7-8.

British Officers to
Train U. S. Troops

(International News Service.)

American Field Headquarters in
France, Sept. 4.—British and probably
Canadian officers are to assist in the
training of the United States troops.
British officers are expected to arrive
shortly. It is believed their presence
will speed up the training work.

Noisy Springfield
is Again Quiet

Springfield, Ill., Sept. 4.—After a
night of riot and disorder Springfield
is again quiet with infantrymen pat-
rolling the street car company's property
to prevent further outbreaks of
the street car strike riots.

CAMP GORDON READY

FOR FIRST CALL MEN.

(International News Service.)

Atlanta, Sept. 4.—Everything is
ready for the reception of the first
contingent of Uncle Sam's new national
army at Camp Gordon tomorrow.
Officers have been assigned to their
commands and when the drafted men
roll in they will find their commanders
waiting to receive them and show
them their new homes.

Light Baggage for
All Drafted Men

Washington, Sept. 4.—Drafted men
of the first five per cent contingent
who will leave Wednesday for mob-
ilization camps are directed in regula-
tions issued today to take a mini-
mum of civilian clothing and personal
belongings. Toilet articles, towels
and handkerchiefs are recommended,
and no objection will be made to two
changes of underclothing, but other
articles are frowned upon.

The story of "Her Greatest Love"
is one of deep human appeal. It tells
of the maneuvering and the machin-
ations and the subtle intrigues of a
typical society "butterfly" nucleus, to
make an advantageous marriage for
her daughter. In doing so she eventually
schemes away her child's hap-
piness by marrying her to a Russian
prince, whose peccadilloes and flagrant
breaches of morality were known
throughout Europe.

MR. AND MRS. ROBERT T. SHEPPARD CELEBRATE THEIR FIRST ANNIVERSARY.

On Monday evening Mr. and Mrs. Robert T. Sheppard entertained at dinner in celebration of their first wedding anniversary. The beauty of their apartments was heightened by luxurious palms and ferns. The well-appointed table was centered by a crystal basket of cut flowers, the handle adorned with a filmy tulle bow. Cards marked places for Mrs. Jones, Dr. and Mrs. C. A. Jones, Mr. and Mrs. Howard Baynes, Mr. and Mrs. W. R. Shelton and son, Barrett, and Mr. and Mrs. R. T. Sheppard. The couple was the recipient of many pretty souvenirs of the occasion.

MISSIONARY SOCIETY, CENTRAL M. E. CHURCH.

The Missionary Society of the Central Methodist church met yesterday afternoon with Mrs. John M. Minor. Mrs. J. L. Proctor led with a most comprehensive subject, "Public Health," assisted by Mrs. J. B. Schimmel. During the social hour dainty refreshments were served. The meeting was the first regular one since the closing of the summer season.

Mr. and Mrs. J. A. Bunch and son, Will, expect to leave the latter part of the week for Mobile, to make it their future home. Mr. and Mrs. Bunch have lived here for thirty years and are held in the highest esteem by the people of these cities, who will regret their determination to remove to another city.

Guards to March.

The Albany Home Guards and the Albany and Decatur police have been invited to march in tonight's parade,

and also all other uniformed organizations, as a special escort of honor.

The men who failed to answer when their names were called were Benj. L. White, Benj. F. Hill, James N. Norwood and James Keltner. Mr. White is a volunteer for the first contingent. It is thought that these men did not receive their notices in time to report by noon today.

Rental Property In Albany-Decatur Profitable

Most of the fortunes in the United States had for their foundation wise investments in Real Estate. If you will observe that when a man makes a success in any line of business it is usually the procedure to invest the profits in REAL ESTATE.

In Albany-Decatur Real Estate has always proved profitable. Upon investigation we find that rental property has produced good revenue for its owners. We need more modern rental property. The Homes as designed by "Ye Planry" and illustrated each week in the Albany-Decatur Daily would prove very profitable as rental property.

Does Renting Pay?

First we will take the man who is paying \$15.00 per month. We figure ten years because there is any number of men in Albany and Decatur who have been renting that long.

Twelve months rent at \$15.00 is \$ 180.00

Ten years' rent at \$180.00 is \$1,800.00

What have you to show for it? (Wait until you miss a month.) A big sign hung on the door—"FOR RENT," by some real estate man or an individual who just had a little more nerve than you had ten years ago.

You have rented ten years at I paid for a house and lot which is still there—so are you, and still paying \$15.00 per month to get to stay.

Let us explain our Monthly Payment Plan and help you to be the owner of a HOME, not a PLACE.

Solid Comfort Expressed In This Design

This bungalow is one where the future up-keep will be exceedingly small. Everything which enters into this construction is solid, the whole house being planned to embody comfort, convenience and utility. The porch columns, pedestals and buttresses and chimney are rough hewn stones with smooth stone caps. The front porch girded with heavy iron beams gives an unobstructive view for the whole front.

Entering directly from the front porch into a large living room with a 10x14 den on the right; in this den is a massive rock mantel from floor to ceiling. The den has an appearance of a ship's cabin with its heavy supporting beam ceiling. The dining room is provided with the "Ye Planry" buffet extending the entire length of the room.

The kitchen is equipped with all modern built-in appliances. Ajoining the kitchen is a cozy breakfast room. In the hall which separates the bedrooms is located the stairs which goes both to basement and attic. Large closets in hall and bedrooms, with large storage closet on the rear porch.

Everything in Hardware for Builders

It is the most important to select the best hardware for that new home or building. That brings you here, for we make a point of carrying nothing but the best builder's hardware that adds not only to the beauty of a building but to its selling value as well.

The Sash and door Locks, Hinges, Etc., are a very small part of a building, but will repay many times for the cost and trouble of proper selection. Cheap goods are a continual source of trouble and worry.

We are prepared to name interesting prices on the complete hardware for any style of building from the humble cottage to the largest office building.

Yes sir! We also sell the best building Tools—all moderately priced.
